Freelance Medical Illustrator/Animator | Nov 2015 - Present

- Worked onsite to design training materials for pharmaceutical and medical clients.
- Illustrated materials, including medical illustrations, illustrations, graphs, and charts for display and clarity using Adobe Photoshop and Illustrator.
- Animated videos for instructional purpose using Adobe Flash.
- Built training material using Claro, designed and created artwork and customized, unique pages.
- Translated and elevated requests from writing staff to achieve artistic vision that complimented text.
- Assisted multiple departments for use of talent on multiple projects, was able to context switch quickly and efficiently.

SIEMENS | Norwood MA

Graphic Designer | July 2015 - Nov 2015

- Designed UDI barcodes unique to Siemens per FDA standards.
- Tailored placement of barcodes with consideration to pre-existing package design and mechanical capabilities of several plants.
- Promptly completed quality day-to-day pieces with accurate artwork and proofing.
- Illustrated instructional images for IFU manuals and for redesign project.
- Reviewed legacy artwork for any errors and cleaned to current design standards.

COVIDIEN/MEDTRONIC | Mansfield MA

Graphic Designer/Artwork Coordinator | Oct 2014 - July 2015

- Performed a dual role as graphic designer and artwork coordinator.
- Gathered and assigned artwork, verified information for medical accuracy, and reviewed artwork was to UDI standards.
- Routed artwork for approval to Covidien plants using internal Agile based system.
- Designed medical device labels to UDI and rebranding standards using plant approved dielines.
- Worked with other departments such as Regulatory and Day-to-Day on a variety of additional tasks.

CELTICARE | Waltham MA

Provider Data Management Coordinator | July 2014 - Oct 2014

- Processed requests from providers and credentialing contacts to update provider records for Commcare, Careplus, and Exchange.
- Performed roster reconciliations between provider records and internal records.
- Promptly provided status requests and updates to clients.
- Helped define standards for new registrar system to assist PDM department.

MULTIPLAN | Waltham MA

Registrar I & II | Dec 2011 - July 2014

- Promoted to a senior managerial position within registrar department.
- Trained new hires in class and one-on-one settings, as needed.
- Monitored quality and efficiency of routed files to keep accurate records within internal system.
- Learned, mastered, and assisted with more effective techniques for application of Filebound system.

WORK EXPERIENCE CONT.

nSIGHT | Waltham MA

Freelance Medical Illustrator | Jan 2013 - May 2013

- Designed and executed majority of images in two books in a consistent, clean style using Adobe Illustrator.
- Kept lines of communication professional and consistent from initial illustrations through edits.

DARTMOUTH PUBLISHING INC | Sudbury MA

Freelance Medical Illustrator | Nov 2009 - Nov 2012

- Created original artwork including medical illustrations, graphics, animations, edited medical images, and charts for a variety of clients.
- Worked on-site for easy communication between illustrators, coordinators, and clients.
- Consulted as a resource for medical knowledge and reference.

ACHIEVEMENTS

- Created multiple freelance pieces ensuring accuracy and satisfaction, while keeping a clear line of communication to transform ideas to a final product.
- Designed and illustrated multiple prints sold independently at large conventions and fairs.
- Planned and produced illustrations for two full-length book publications, "I'm Having a Baby" by Christine Traxler, MD and "I Had My Baby" by Robert Lindeman, MD, PhD.
- Prepared individual medical illustrations, graphics, charts, pre-flights, and animations for multiple authors. Interpreted and met the various specifications.
- Interpreted specifications for animated medical illustrations and executed those animations for different authors.
- Prepared anatomical and medical device illustrations for multiple patent application filings.
- Designed UDI barcode placement and arrangement for multiple package designs.
